

I claim:

1. A glaucoma implant, comprising:

- a) a body, the body having sidewalls defining a hollow interior; and
- b) at least one flexible tube attached to one of the sidewalls, the tube having a port through the sidewall allowing the tube to communicate with the hollow interior.

2. The implant of claim 1 further comprising a bottom plate sized and shaped to attach to the sidewalls.

3. The implant of claim 1 wherein the implant comprises polymethylmethacrylate.

4. The implant of claim 1 wherein the implant comprises polycarbonate.

5. The implant of claim 1 wherein the implant comprises silicone.

6. The implant of claim 1 wherein the implant comprises a soft acrylic.

7. The implant of claim 1 wherein the implant comprises stainless steel.

8. The implant of claim 1 wherein the implant comprises titanium.

9. The implant of claim 1 wherein the implant comprises a hydrogel.

10. The implant of claim 1 wherein the implant comprises polyurethane.

11. The implant of claim 1 wherein the implant comprises polyamide.

12. The implant of claim 1 wherein the implant comprises polypropylene.

1 13. The implant of claim 2 wherein the implant comprises  
2 polymethylmethacrylate.

1 14. The implant of claim 2 wherein the implant comprises polycarbonate.

1 15. The implant of claim 2 wherein the implant comprises silicone.

1 16. The implant of claim 2 wherein the implant comprises a soft acrylic.

1 17. The implant of claim 2 wherein the implant comprises stainless steel.

1 18. The implant of claim 2 wherein the implant comprises titanium.

1 19. The implant of claim 2 wherein the implant comprises a hydrogel.

1 20. The implant of claim 2 wherein the implant comprises polyurethane.

1 21. The implant of claim 2 wherein the implant comprises polyamide.

1 22. The implant of claim 2 wherein the implant comprises polypropylene.

1 23. The implant of claim 1 wherein the implant further comprises a coating.

1 24. The implant of claim 2 wherein the implant further comprises a coating.
